Note: For the purposes of this table, the term "public lands" refers to those lands managed by the BLM. Due to the relatively static nature of the numbers of wildlife on public lands, this table will be updated on a 5-year basis unless a significant change in population numbers is observed, in which case any state may update its information for any year. The next formal update will be in Fiscal Year 2004.

/a/ The sheep numbers for Alaska are for Dall Sheep.
